To,

Mrs T. V. Vareed & family

Hindustan Aeronautics Limited

Sir,

Aero Engine Research & Design Centre (AERDC), Design Complex, HAL, Bangalore, is organising an **“Conference on Aero Gas Turbine Engines: Strategies in Development and Production of Aero Engines in India”** and Shri. T. V. Vareed Memorial Lecture on Saturday, 1st June 2013 at 2:00 PM in Shri Jayachamarajendra Wadiyar Kalakshetra, Dr. Ghatage Convention Centre, HAL.

Over the decades, India's capability in the design of aircraft has matured, but still continues to import gas turbine engines to power its aircrafts. AERDC, HAL has taken initiative to develop indigenous aero engine of medium thrust class.

This conference aims to bring together leading engineers, industry players and education institutions to exchange and share the latest technologies and important aspects of aircraft gas turbine engines, discuss the practical challenges encountered and explore possibilities of partnering in area of expertise. The conference will also focus on the key business challenges faced by the Indian Aero Gas Turbine Engine industry.

The Organising committee takes immense pleasure in inviting you as a delegate to this conference.

I look forward to your acceptance of the invitation.

Best Regards,

T. Suvarna Raju
